

# DID YOU KNOW?

## ETFs replicate index

ETFs are investment products that aim to generate returns similar to the underlying index by typically replicating the constituents and their weight in the underlying portfolio.

It is always advisable to consult your financial advisor before investing.

All Mutual Fund investors have to go through a one-time KYC (Know Your Customer) process. Investors should deal only with Registered Mutual Funds (RMF). For further information on KYC, RMFs and procedure to lodge a complaint in case of any grievance, you may refer the Knowledge Center section available on the website of Mirae Asset Mutual Fund.
