

DID YOU KNOW?

ETFs are transacted on Stock Exchanges

- ETFs are listed, traded and settled on the Stock Exchanges like any other stock.
- There are buyers and sellers of ETFs on the exchange and prices are determined based on the demand and supply.
- A market maker is also appointed by the AMC, to provide pricing and liquidity in ETFs on the exchange around the real-time NAV.
- ETFs are held in your demat account the same way as you hold shares.

It is always advisable to consult your financial advisor before investing.

All Mutual Fund investors have to go through a one-time KYC (Know Your Customer) process. Investors should deal only with Registered Mutual Funds (RMF). For further information on KYC, RMFs and procedure to lodge a complaint in case of any grievance, you may refer the Knowledge Center section available on the website of Mirae Asset Mutual Fund.
